

May Campout & Trip Report

M O U N T A I N E E R S

Campers started arriving at the Kelly Flats Campground early Friday afternoon. Thanks to Cotton we had a large fire to cook over that night as he had dropped off a huge load of firewood for us to use. In fact, we had enough wood to last the whole weekend with some to spare. As soon as Darwin & Colleen arrived, Darwin had the hood up on the Jeep as his batteries were dead from the trip up the canyon. He gathered several Mountaineers to figure out what was wrong. The “Brain Trust” determined that his brand new high output alternator had no output at all.

The next morning we met with Lenora and headed to the Kelly Flats trailhead. Dan headed up a group of six vehicles to go up Heart Attack Hill to determine how to close a spur road that had developed and to look at the challenge at the first landing. Elaine had a great time and as she put it, she was a “Heart Attack Hill Virgin”. The rest of the group set about cleaning out water bars and picking up trash. This year there seemed to be a lot more trash especially in the dispersed camping spots. “The Chutes” were a lot easier this year as there was no mud

M O U N T A I N E E R S

to make the rocks slick. Evan did put some new rock rash on his Toyota but made the trip unassisted. Brandon Kapperman (after getting permission from his mentor, Shane) did pretty well for his first attempt through the Chutes except for a scratched wheel rim. He didn't relish the thought of going home and telling his dad that he had scratched the TJ and of course everybody had to rub it in. Richard had to dig out the chainsaw to cut some wood out of the trail. At the end of the trail Lenora deemed that Kelly Flats was open for the season.

On Sunday we met Lenora again for the work detail on Seven Mile. Again we found a lot of trash on the trail. As we went along, we had to divert water off the road back into the creek. When we got to the Meadow, most of us were very disappointed as there was no grass left on either side of the trail. We gathered together and offered our suggestions as how to repair the damage. Lenora said that she couldn't open the trail until the damage was mitigated and said that they would have to hire a contractor to do the work. While all this was going on, here comes a couple of kids on ATVs down the trail. After talking with them, we went in search of the trail that they had come in on. We found it and a group of us went about closing the illegal ATV trail. Our work done, it was time to go back to the campground to dump trash and head for the barn.

Thanks to all the Mountaineers that volunteered their weekend to get our trails open. For the weekend, we turned in 488 Adopt-A-Road project hours to the Colorado State Association.

Club Trip

Left Hand Canyon - Carnage Canyon

Meet at Albertson's at 9:00 AM

Sunday June 20 th

So what's in a name?

Some trails are named to scare you but then later you find out that the trail is just a walk in the park. Others are named to trick you into thinking something mellow is ahead when you really should think twice. Carnage Canyon is an oldie but goodie just outside Boulder, Colorado. It is a trail that has earned its name. The trail is only about 1.2 miles in length and runs along the floor of a canyon, which is tight and filled with large rocks.

The trail is not one of the most difficult on the planet but offers some good hard core challenges. Good flex, high clearance, rocker protection and skid plates are a must for this trip. If you make it out in one piece, there are many miles of easier trails in the area to explore when you are done.

Editor's Note

I need Member's Rides again, and a picture if you have one.

Please give to Dave Oden at the meeting, or send info to 4x4@JeepnDave.com

Jackets

We are set to go with Jackets at DJ Sports. Price is determined by how many are done at a time. You need to take your jacket in to them. The more done at a time the cheaper it will be. They are at the SE corner of Laurel & College. Phone is 493-2575. Please stop in for a price quote.

Completely Useless Facts

Hot water is heavier than cold.

Sound travels 15 times faster through steel than through the air.

A ball of glass will bounce higher than a ball of rubber. A ball of solid steel will bounce higher than one made entirely of glass.

An apple, onion, and potato all have the same taste. The differences in flavor are caused by their smell. To prove this - pinch your nose and take a bite from each. They will all taste sweet.

The estimated number of M & M's sold each day in the United States is 200,000,000.

Grapes explode when you put them in the microwave.

M O U N T A I N - E A R S

Only food that does not spoil: honey.

There are more than 15,000 different kinds of rice.

A hard-boiled egg will spin. An uncooked or soft-boiled egg will not.

Sliced bread was introduced under the Wonder Bread label in 1930.

Sixty cows can produce a ton of milk a day.

The Chuck E. Cheese franchise was created by Atari, a restaurant combining robotic animals and arcade games with family meals. They name the franchise a Pizza Time Theater. Chuck E. Cheese was first opened in 1977.

There are 2,000,000 different combinations of sandwiches that can be created from a SUBWAY menu.

Camel's-hair brushes are not made of camel's hair. They were invented by a man named Mr. Camel.

The first VCR, made in 1956, was the size of a piano.

The monkey wrench is named after its inventor, a London blacksmith named Charles Moncke.

The power lawn mower was invented by Ransom E. Olds (of Oldsmobile fame) in 1915.

M O U N T A I N - E A R S

The shoestring was invented in England in 1790, Prior to this time all shoes were fastened with buckles.

Because he felt such an important tool should be public property, English chemist John Walker never patented his invention - matches.

George Eastman, inventor of the Kodak camera, hated having his picture taken.

Venetian blinds were invented in Japan.

Naugahyde, plastic "leather" was created in Naugatuck, Connecticut.

The first product Motorola started to develop was a record player for automobiles. At that time the most known player on the market was the Victrola, so they called themselves Motorola.

Kleenex tissues were originally used as filters in gas masks.

The toilet was invented by an Englishman named Thomas Crapper.

Charlie Brown's father was a barber.

On average, there are 333 squares of toilet paper on a roll.

20252 is Smokey the Bear's own zip code.
